

CHEM SHARP™ TUNGSTEN SHARPENER

A safe alternative to tungsten grinding.

Chemically mills a perfect point on pure, thoriated, ceriated, and lanthanated tungsten. Average time to re-point tungsten is approximately one minute at the work station. Compared to traditional sharpening methods, chemical re-pointing extends tungsten life by 400%.

Description 6 x 4.5 oz. Jars

Unit Case

Features Biodegradable, Non-Flammable, Non-Toxic
