Part 2: Hazard(s) Identification

Signal Word: WARNING
H303: May be harmful if swallowed
H313: May be harmful in contact with skin
H333: May be harmful if inhaled

Emergency Overview
Appearance: Clear, blue liquid, Non-viscous, mild-sweet odor

Exposure routes
Inhalation, Skin absorption, Skin contact, Eye contact, Ingestion

Eye contact
Can cause eye irritation. Symptoms include stinging, tearing, redness and swelling of eyes.

Skin contact
May cause mild skin irritation. Symptoms may include redness and burning of skin.

Ingestion
Swallowing this material may be harmful. Severe irritation.

Inhalation
It is possible to breathe this material under certain conditions of handling and use (for example, spraying, or stirring). Inhalation of spray or mist is irritating to respiratory tract and mucous membranes. Prolong contact may cause tissue damage.

Carcinogenicity
This material is not listed as a carcinogen by the International Agency for Research on Cancer (IARC), the national Toxicology Program (NTP), or the Occupational Safety and Health Administration (OSHA).

Chronic Effects
Repeated exposure may cause dermatitis.

Part 4: First Aid Measures

Eyes
If symptoms develop, immediately move individual away from exposure and into fresh air. Flush eyes gently with water for at least 15 minutes while holding eyelids apart; seek immediate medical attention. GHS Category 2B

Skin
Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist, seek medical attention. Launder clothing before reuse. GHS Category 3

Ingestion
Seek medical attention. If individual is drowsy or unconscious, do not give anything by mouth; place individual on the left side with the head down. Contact a physician, medical facility, or poison control center for advice about whether to induce vomiting. If possible, do not leave individual unattended. GHS Category 4

Part 5: Fire Fighting Measures
Product is non-combustible; use procedures applicable with surrounding fire.

Suitable extinguishing media
Dry chemical, Carbon dioxide (CO@), Water spray

Hazardous combustion products
Oxides of carbon, nitrogen, phosphorus.

Precautions for fire-fighting
Wear full firefighting turn-out gear (full Bunker gear), and respiratory protection (SCBA). DO NOT direct a solid stream of water or foam into hot, burning pools of liquid since this may cause frothing and increase fire intensity. Frothing can be violent and possibly endanger any firefighter standing too close to the burning liquid. Use water spray to cool fire exposed containers and structures until fire is out if it can be done with minimal risk. Avoid spreading burning material with water used for cooling purposes.

Part 6: Accidental Release Measures

Small spill cleanup:
Collect all spilled material (absorb with inert material) and place in a waste container. Seal and label the container as waste. Dispose of in accordance with local, state and federal regulations. Keep out of reach of children.

Part 7: Handling and Storage

Handling
Do not get in eyes, on skin or on clothing. Keep container closed. Promptly clean up spills. Wash thoroughly after handling.

Storage
Store at temperatures below 150°F (65°C) and avoid freezing. Keep container tightly closed. Do not incinerate containers.

Part 8: Exposure Controls / Personal Protection

Engineering Controls:
Use with adequate ventilation.

Skin Protection:
Wear protective clothing and gloves for repeated exposure.

Eye Protection:
Wear chemical goggles.
Part 9: Physical and Chemical Properties

Part 10: Stability and Reactivity

Stability
Stable

Conditions to avoid
Excessive heat.

Incompatible products
Acids, oxidizing agents

Hazardous decomposition products
Oxides of carbon, nitrogen, phosphorus.

Hazardous Reactions
Product will not undergo hazardous polymerization.

Thermal decomposition
No data

Part 11. Toxicological Information

Routes of Entry: Eye contact. Skin contact.
Carcinogenicity: No ingredients known to be carcinogens.
Reproductive Toxicity: Not Applicable
Teratogenicity: No effects determined.
Mutagenicity: No effects determined.

Part 12. Ecological Information

Acute Data:
This product has not been tested for environmental effects.

Part 13. Disposal Considerations

Disposal Method: Dispose in accordance with federal, state and local regulations.
Part 14. Transport Information
This material is Non-Hazardous (Per 49 CFR 172.101) by the U.S. Department of Transportation.
This material is not regulated as a hazardous material.
UN Proper Shipping Name: Not Applicable
Hazardous Class or Division: Not Applicable
UN Number: Not Applicable
Packaging Group: Not Applicable

Part 15. Regulatory Information

Canadian WHMIS Status: This product is not considered to be hazardous as defined by Canadian WHMIS Controlled Products Regulations.
U.S. Toxic Substances Control Act (TSCA): All ingredients contained in this product are listed on the U.S. EPA TSCA Chemical Substance Inventory.
EPA SARA 313: This product has no components that are regulated under SARA Title III, Section 313.

California Proposition 65: This product contains no chemical components which are known to the State of California to cause cancer, reproductive toxicity or birth defects.
