Section 1 - Identification

Product Identifier

Defense™ Coolant Anti-Freeze with Ethylene Glycol Concentrated

Other Means of Identification

929B

Recommended Use of the Chemical and Restrictions on Use

See product label

Section 2 – Hazard Classification

Classification of the Chemical

Acute Toxicity - Oral, category 4

Signal Word

Warning

Pictograms

Responsible Party

Dynaflux, Inc.

241 Brown Farm Rd., Cartersville, GA 30120 1.800.334.4420

Emergency Phone Number

Call Chem-Tel at 1.800.255.3924 for chemical emergencies

Hazard Statement(s)

Harmful if swallowed

Precautionary Statement(s)

Wash hands and exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Dispose of container in accordance with local regulations.

IF SWALLOWED: Call a poison control center if you feel unwell. Rinse mouth.

Note

Labeling elements found on this SDS may be different from labeling elements found on the label. Safety Data Sheets are regulated by OSHA (29 CFR §1910.1200) while the actual product and its label may be regulated by a different government agency. Please contact the responsible party in Section 1 if you have any guestions.

0% of this mixture consists of ingredient(s) of unknown acute toxicity

Section 3 - Composition on Ingredients

CAS	%wt	Hazards
	CAS	CAS %wt

Ethylene Glycol 107-21-1 30-60 Acute Toxicity 4 (oral)

Trade Secret Claim

When applicable, the specific concentration of each hazardous ingredient is considered a TRADE SECRET. Chemical names and identifiers will be listed in exact composition weight and name when not subject to trade secret exemptions.

Note

This product may contain other ingredients that are not required to be disclosed on this safety data sheet or product label in accordance with 19 CFR §1910.1200. Any ingredient not listed on either the SDS or label is not considered hazardous to health and shouldn't pose a risk to the user.

Section 4 - First Aid Measures

General First Aid Measures

If medical attention is required then provide product label or safety data sheet to a medical professional.

If Inhaled

Move person to fresh air and keep comfortable for breathing. Administer artificial respiration if person is not breathing.

Most Important Symptoms

Ethylene glycol is toxic when ingested at sufficient quantities

Indication of Immediate Medical Attention

Not anticipated to require immediate medical attention.

If on Skin

Wash with soap and water. Take off contaminated clothing and launder with detergent before reuse.

If Swallowed

Do NOT induce vomiting unless instructed to do so by a trained medical professional. Rinse mouth with water.

Section 5 – Fire-Fighting Measures

Suitable Extinguishing Media

Water spray, powder, alcohol-resistant foam, carbon dioxide.

Unsuitable Extinguishing Media

None known.

Special Protective Equipment for Fire-Fighters

Use a self-contained breathing apparatus.

If in Eyes

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Rinse for at least 10 minutes to ensure proper flushing of material from eye.

Specific Hazards Arising from the Chemical None known.

Hazardous Combustion Products
Not determined.

Precautions for Fire-Fighters

None known.

Section 6 - Accidental Release Measure

Personal Precautions

Ensure that the environment is physically safe to be in. Wear personal protective equipment before remedying an accidental release of mixture.

Protective Equipment

Wear gloves suitable for chemical resistance. Wear protective eye glasses/goggles. In the event of inadequate air ventilation use artificial breathing apparatuses.

Emergency Procedures

Evacuate all non-essential personnel from the area. Shut off all sources of ignition. Ensure that all drains are covered to prevent environmental exposure. Follow methods found in next sub-section: Methods for Containment and Clean Up

Methods for Containment and Clean Up

Small spill: Soak up with absorbent material, i.e. kitty litter, clay or dirt. Sweep up and place in a labeled closed container.

Large spill: Keep unauthorized people from the area. Use self-contained breathing apparatus. Absorb residue and sweep up. Place in a closed, labeled container. Remove all ignition sources. Prevent product from entering sewers, rivers, or other bodies of water.

References

See Section 7 on safe handling. Section 8 for information on personal protection equipment. See Section 13 for disposal information.

Section 7 – Handling and Storage

Precautions for Safe Handling

Keep in original container before and after use. Read product label thoroughly and follow directions as provided in each label's Directions section. Wear protective equipment suggested in Section 8 even if product label does not recommend use of protective equipment.

Conditions for Safe Storage

Store in all original containers/packaging as product label contains important information regarding proper use of chemical. Keep away from heat. Store appropriate to NFPA ratings found in Section 15 of this SDS.

Storage Incompatibilities

None known.

Section 8 – Personal Protection

Exposure Limits

IngredientCASPELAGCIHNIOSHEthylene Glycol107-21-1n/a25 ppmn/a

General Note

Practice good industrial hygiene by washing hands thoroughly before and after use. Keep working areas clean. Ensure proper use of personal protective equipment as recommended in this section.

Appropriate Engineering Controls

Ensure adequate mechanical ventilation capable of preventing vapor build up.

Eye Protection

Eye glasses or goggles are recommended when using this product. Eye protection should fit user as to minimize risk of exposure as much as possible. Eye protection should protect against splash back and aerosolized mists which may affect eyes.

Section 9 – Chemical Properties

Appearance Colorless liquid

Odor Sweet
Odor Threshold Not determined

pH Not Melting Point 9°F

Boiling Point Not determined

Flash Point >232°F

Evaporation Rate Not determined

Skin Protection

Wear long sleeves and pants to minimize exposure to skin. Wear protective gloves when using this product. Gloves should be chemically resistant to the material. Launder contaminated clothing before reuse. Wear an apron if usage of chemical is anticipated to expose user to a large quantity of material.

Respiratory Protection

Mechanical ventilation is often sufficient for ensuring respiratory systems are better protected against exposure to material; however, should it be determined that material exposure limits are being concentrated as vapors then local ventilation should be utilized. If vapors exceed TLV use an approved respirator.
