

## Section 1 – Identification

### Product Identifier

DF315 (Aerosol)

### Other Means of Identification

DFAX

### Recommended Use of the Chemical and Restrictions on Use

See label.

### Responsible Party

Dynaflux, Inc.  
241 Brown Farm Rd., Cartersville, GA 30120  
1.800.334.4420

### Emergency Phone Number

Call Chem-Tel at 1.800.255.3924 for chemical emergencies.

## Section 2 – Hazard Classification

### Classification of the Chemical

Flammable Aerosol, category 1  
Eye Irritation, category 2a  
STOT-SE, category 3, drowsiness

### Precautionary Statement(s)

Keep away from heat, sparks, open flames, hot surfaces and other ignition sources.-No smoking.  
Do not spray on an open flame or other ignition source.  
Do not pierce or burn, even after use.  
Avoid breathing vapors.  
Use only outdoors or in a well-ventilated area.  
Wear protective gloves and eye protection.  
Wash hands and exposed skin thoroughly after handling.  
Dispose of container in accordance with local regulations.  
Protect from sunlight.  
Store locked up.  
Store in a well-ventilated place.  
Keep container tightly closed.  
Do not expose to temperatures exceeding 122°F.  
Keep out of the reach of children.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists: Get medical advice.

### Hazard Statement(s)

Extremely flammable aerosol.  
Pressurized container: may burst if heated.  
May cause drowsiness or dizziness.  
Causes serious eye irritation.

### Signal Word

Danger

### Pictograms

### Hazards Not Otherwise Classified

None Known

### Note

Labeling elements found on this SDS may be different from labeling elements found on the label. Labels may be regulated by a different government agency. Please contact the responsible party in Section 1 if you have any questions.

0% of this mixture consists of ingredient(s) of unknown acute toxicity.

## Section 3 – Information on Ingredients

### Hazardous Ingredients

Ingredient	CAS	%wt	Hazards
Ethyl Acetate	141-78-6	60-100	Flam Lq. 2; Eye Irrit. 2a; STOT-SE 3(d)
Isopropyl Alcohol	67-63-0	15-40	Flam Lq. 2; Eye Irrit. 2a; STOT-SE 3(d)

### Trade Secret Claim

When applicable, the specific concentration of each hazardous ingredient is considered a TRADE SECRET. Chemical names and identifiers will be listed in exact composition weight and name when not subject to trade secret exemptions.

**Note**

This product may contain other ingredients that are not required to be disclosed on this safety data sheet or product label in accordance hazard communication standards. Any ingredient not listed on either the SDS or label is not considered hazardous to health and shouldn't pose a risk to the user.

**Section 4 – First Aid Measures**

**General First Aid Measures**

If medical attention is required then provide product label or safety data sheet to a medical professional.

**If Inhaled**

Move person to fresh air and keep comfortable for breathing. Administer artificial respiration if person is not breathing.

**If on Skin**

Wash with soap and water. Take off contaminated clothing and launder with detergent before reuse.

**Most Important Symptoms**

Eye irritation, drowsiness and dizziness.

**Section 5 – Fire-Fighting Measures**

**Suitable Extinguishing Media**

Water, carbon dioxide, sand, powder extinguisher, dry chemical.

**Specific Hazards Arising from the Chemical**

None known.

**Section 6 – Accidental Release Measure**

**Personal Precautions**

Ensure that the environment is physically safe to be in. Wear personal protective equipment before remedying an accidental release of mixture.

**Protective Equipment**

Wear gloves suitable for chemical resistance. Wear protective eyeglasses/goggles. In the event of inadequate air ventilation use artificial breathing apparatuses

**Emergency Procedures**

Evacuate all non-essential personnel from the area. Shut off all sources of ignition. Ensure that all drains are covered to prevent environmental exposure. Do not touch or walk through spilled material.

**References**

See Section 7 on safe handling. Section 8 for information on personal protection equipment. See Section 13 for disposal information.

**Seek Immediate Medical Attention:**

Not anticipated to require immediate medical attention

**If Swallowed**

Do NOT induce vomiting unless instructed to do so by a trained medical professional. Rinse mouth with water.

**If in Eyes**

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Rinse for at least 10 minutes to ensure proper flushing of material from eye.

**Unsuitable Extinguishing Media**

None known.

**Special Protective Equipment & Precautions for Fire-Fighters**

Not determined.

**Methods for Containment**

Cover drains and ventilate area to prevent vapor build-up. Use sand or other absorbent material to create a barrier to prevent chemical flow.

**Methods for Clean Up**

Small spill: Soak up with absorbent material, i.e. kitty litter, clay or dirt. Sweep up and place in a labeled closed container.

Large spill: Keep unauthorized people from the area. Use self-contained breathing apparatus. Hike area and pump contents to a labeled, closed container. Absorb residue and sweep up. Place in a closed, labeled container. Remove all ignition sources.

## Section 7 – Handling and Storage

### Precautions for Safe Handling

Keep away from all ignition sources. Do not smoke while handling.

### Storage Incompatibilities

None known.

### Conditions for Safe Storage

Store in all original containers/packaging as product label contains important information regarding proper use of chemical. Store appropriate to NFPA ratings found in Section 15 of this SDS.

## Section 8 – Exposure Controls

### Permissible Exposure Limits

Ingredient	CAS	OSHA PEL	AGCIH TLV
Ethyl Acetate	141-78-6	400 ppm	400 ppm
Isopropyl Alcohol	67-63-0	400 ppm	200 ppm

### General Note

Practice good industrial hygiene by washing hands thoroughly before and after use. Keep working areas clean. Ensure proper use of personal protective equipment as recommended in this section.

### Appropriate Engineering Controls

Ensure adequate mechanical ventilation capable of preventing vapor build up.

### Eye & Face Protection

Eye glasses or goggles are recommended when using this product. Eye protection should fit user as to minimize risk of exposure as much as possible. Eye protection should protect against splash back and aerosolized mists which may affect eyes.

### Skin Protection

Wear long sleeves and pants to minimize exposure to skin. Wear protective gloves when using this product. Gloves should be chemically resistant to the material. Launder contaminated clothing before reuse. Wear an apron if usage of chemical is anticipated to expose user to a large quantity of material.

### Respiratory Protection

Mechanical ventilation is often sufficient for ensuring respiratory systems are better protected against exposure to material; however, should it be determined that material exposure limits are being concentrated as vapors then local ventilation should be utilized. If vapors exceed TLV use an approved respirator.

### Environmental Protection

No anticipated protective equipment is required.

## Section 9 – Chemical Properties

STATE	Liquid, aerosol	pH	Not determined
COLOR	Not determined	KINEMATIC VISCOSITY	Not determined
ODOR	Not determined	SOLUBILITY	Not determined
MELTING POINT	Not determined	VAPOR PRESSURE	Not determined
BOILING POINT	Not determined	RELATIVE DENSITY	Not determined
FLAMMABILITY	>85% flammable content	VAPOR DENSITY	Not determined
EXPLOSIVE LIMIT		AUTO-IGNITION TEMP	Not determined
Upper	Not determined	DECOMPOSITION TEMP	Not determined
Lower	Not determined	PARTITION COEFFICIENT	Not determined
FLASH POINT	Not determined	PARTICLE CHARACTERISTICS	Not determined

## Section 10 – Stability and Reactivity

### Reactivity

Material is not anticipated to be reactive

### Chemical Stability

Material is anticipated to be stable in normal storage conditions.

### Conditions to Avoid

Heat, sources of ignition, direct sunlight, etc.

### Incompatible Materials

None known.

**Possibility of Hazardous Reactions**  
None known.

**Hazardous Decomposition Products**  
Not determined.

## Section 11 – Toxicological Information

### ACUTE TOXICITY ESTIMATES

Oral – No toxic ingredients.  
Dermal – No toxic ingredients.  
Inhalation – No toxic ingredients.

### SKIN EXPOSURE

Not expected to cause skin irritation.  
Not expected to cause an allergic skin reaction.  
Not considered toxic to dermal exposure.

### EYE EXPOSURE

Causes serious eye irritation.

### CARCINOGENICITY

Not suspected of causing cancer.  
National Toxicity Listing: None listed  
International Agency for Research on Cancer Listing: None listed.

## Section 12 – Ecological Information

### Ecotoxicity Estimated Values

Algae No toxic ingredients.  
Fish No toxic ingredients.  
Crustacea No toxic ingredients.

### Persistence and Degradability

Not biodegradable.

## Section 13 – Disposal Consideration

### Disposal of Empty Containers

Empty container can be recycled.

### Disposal of Material

Dispose of full or partially full containers by offering material to a licensed waste management company and follow all local regulations on proper disposal of material.

## Section 14 – Transportation Information

### Hazard Placards

<b>UN Number</b>	1950
<b>UN Shipping Name</b>	Aerosol, flammable, not in excess of 1 liter
<b>UN Technical Name</b>	-
<b>Hazard Class</b>	2.1 Flammable Gas
<b>Packaging group</b>	-
<b>Limited Quantity</b>	<1L
<b>Marine Pollutant</b>	No
<b>Transport in Bulk</b>	Not determined
<b>Special Precautions</b>	Keep in original container. Do not store excessive weight on top.

### INTERACTIVE EFFECTS

None known.

### INHALATION EXPOSURE

Not expected to cause respiratory irritation.  
Not expected to cause a respiratory allergic reaction.  
Not considered toxic to inhalation exposure.

### INGESTION EXPOSURE

Not considered an aspiration hazard.

### REPRODUCTIVE TOXICITY

Not expected to cause germ cell mutations.  
Not considered toxic to reproduction.

### OTHER TOXICITY

Expected to cause drowsiness or dizziness.

### Mobility in Soil

Not determined.

### Other Adverse Effects

Keep out of sewers and waterways.

### Bioaccumulative Potential

Not determined.

## Section 15 – Regulatory Information

**TSCA Inventory List** All ingredients in this mixture are on the TSCA inventory list as active or exempt.

**California Prop 65**

No ingredients listed.

**VOC (CARB/OTC/CEPA/ETC)**

Product Category	Not applicable
VOC Limit	Not applicable

**HMIS®III (higher numbers indicate higher risk)**

Health	2
Flammability	4
Physical Hazard	2

**NFPA (higher numbers indicate higher risk)**

Health	2
Flammability	3
Instability	0

## Section 16 – Other Information

**Revision History**

May 2021	SDS Creation
August 2025	Update SDS to OSHA Hazcom 2024

**General Disclaimer**

All information appearing herein is based upon data obtained from manufacturers and/or recognized technical sources. While the information is believed to be accurate, we make no representations as to its accuracy or sufficiency. Conditions of use are beyond our control, therefore users are responsible for verifying the data under their own operating conditions to determine whether the product is suitable for their particular purposes and they assume all risks of their use, handling, and disposal of the product.
